ASME WA proudly presents our annual Summer School for 2016.

An emphasis on developing creativity and improvisation

Keynote Session:

Michael Travers is a composer and teacher who has developed many inter-school creative projects in partnership with the wider community including the ABC, the AFL, the Parliament Of Victoria, ARTs Victoria, the Immigration Museum, Sovereign Hill, Australia Post and Scienceworks. He is the music teacher at St Matthew’s PS, Fawkner North where his interest in developing compositional strategies has enabled his students to experience the rewards of creating their own music. Michael is the current President of ASME Victoria and has presented lectures and workshops at Sydney University, RMIT Melbourne, Deakin University, ALEA Conference and ASME XXth National Conference.

Q&A Session:

This year we will be focussing our Q&A on the new WA Music Curriculum. We will have representatives from SCSA who have been involved in the development of the Arts – Music Curriculum K-10 and ATAR studies.

Sessions and Workshops:

We have created five main streams throughout the 2 days. Sessions have been tailored to meet the needs of music teachers in the following areas: Primary Generalist Teachers (PG)*, Primary Specialists (P), Secondary Teachers (S), Peripatetic Teachers and Band/Ensemble Directors (PB). A general interest stream completes the five areas. This will include topics we feel will be of general interest to a range of Music Educators. (G)

Please note * Primary generalist sessions will be aimed at early childhood teachers and early years of Primary schools. They are designed to support all Music educators who do not have formal training in Music Education but now find that is what they are called to do.

Presenters:

Our list of presenters includes representatives from KMEIA, WAOSA, Dalcroze, ANCA, AUSTA, WAMTA and more.

Interstate presenters:

And our local experts include:
