ATTENTION ALL MUSIC, ARTS and STEM EDUCATORS

Are you STEAM-ing ahead?

AUSTRALIAN SOCIETY FOR MUSIC EDUCATION (SA) is pleased to present our Term 3 conference centring on connecting Music and STEM (Science, Technology, Engineering and Maths) in your classroom.

Join us for a FULL or HALF day with presentations and hands on activities/workshops that are designed to integrate STEM concepts and content into Music and (conversely) provide strategies for incorporating musical content into STEM based activities. Sessions will include instrument making, coding, robotics, music technology and lots of creative thinking on alternate ways to create and communicate musically.

Our Guest Presenter and Keynote speaker will be Dr. Elliot Gann, Psy.D, fresh from presenting at ISME’s international conference. Dr. Gann, who is Executive Director of non-profit Today’s Future Sound, will be giving a special presentation on how he and TFS are using Hip Hop beat making and culture as a mental health, educational, social justice and cross-cultural intervention. His sessions will highlight the powerful role technology can play in empowering youth through music.

1st Sept 2018 @
Cabra
Dominican College
225 Cross Rd, Cumberland Park.
